EDUCATION

MBO Software development (level 4) Mediacollege,
Amsterdam

INTERESTS

I am mostly interested in things on my computer but I love to also do different kinds of sports

CONTACTS

(+31) 06 48 82 64 27

alexwillembons@gmail.com

SKILLS

I often deal with critics as things I can improve with and not something negative

Most of the time I can have a really good time with other employees and would like to know more of them.

I can work well under stress and always try to stay focused on the work that is given to me.

KNOWLEDGE

Most of my projects that I made were done in Unity so my knowledge on game engines are mostly there. I have also worked in UE5 but that was only for 1 school project

In terms of coding languages that I know of then I would say that C# is my best knowledge but I also worked with C++, HTML, CSS and JAVASCRIPT.

LANGUAGES

I mostly speak Dutch and have for most of my life.

My english is fluent

I also know a bit of Indonesian but not a lot
